H40-70FT Series

Sit-down, Counterbalanced IC, Pneumatic Tire **FORTRIS** Line of Lift Trucks

TECHNICAL GUIDE

Hyster H40-70FT Lift Truck Dimensions

Circled dimensions correspond to the line numbers on the tabulated chart inside the Technical Guide. Dimensions are in inches (millimeters).
 Truck shown with optional equipment - strobe, light package and TouchPoint™ e-hydraulics with adjustable armrest.

Hyster H60FT Lift Truck Dimensions

CERTIFICATION: These Hyster lift trucks meet design specifications of Part (ANSI) B56:1-1989, as required by OSHA Section 1910.178(b)(2) and also comply with Part (ANSI) B56:1-revision in effect at time of manufacture. Certification of compliance with the applicable ANSI standards appears on the lift truck.

NOTE: Performance specifications / ratings are for truck equipped as described under Standard Equipment in this Technical Guide. Performance specifications are affected by the condition of the vehicle and how it is equipped, as well as by the nature and use of the load. Performance specifications are not intended to be used as a basis for comparison with other lift trucks. For further information on the dimension, please contact your local Hyster Company dealer.

†† Limited by traction. For further information on the dimension, please contact your local Hyster Company dealer.

Hyster H70FT Lift Truck Dimensions

CEIFICATION: These Hyster lift trucks meet design specifications of Part (ANSI B56.1-1999, as required by OSHA Section 1910.178(b)(2) and also comply with Part (ANSI B56.1-revision in effect at time of manufacture. Certification of compliance with the applicable ANSI standards appears on the lift truck.
 * NOTE: Performance specifications are for truck equipped as described under Standard Equipment in this Technical Guide. Performance specifications are affected by the condition of the vehicle and how it is equipped, as well as by the nature and use of the load. Contact your Hyster distributor for more information.
 † Limited by load. For further information on this dimension, please contact your local Hyster Company dealer.

Hyster H40-70FT Standard Features and Options

| | |
|---|---|
| CAPACITY: | Rated capacities are for trucks equipped with: |
| Model H40FT: 4,000 lbs. at 24.0" (1814 kg at 610 mm) load center. | <ul style="list-style-type: none"> 3-Stage full free-lift (FFL) VSTA® mast to 171.5" (4336 mm) maximum fork height 42.0" (1067 mm) hook-type carriage with 42.0" (1067 mm) long forks 48.0" tail load backrest extension (LBE) Standard tread |
| Model H60FT: 5,000 lbs. at 24.0" (2288 kg at 610 mm) load center. | |
| Model H70FT: 6,000 lbs. at 24.0" (2721 kg at 610 mm) load center. | |
| Model H70FT: 7,000 lbs. at 24.0" (3175 kg at 610 mm) load center. | |
| MASTS | Yanmar 2.6L and 3.3L emissions compliant engines feature: |
| <ul style="list-style-type: none"> Masts are available in 2-stage limited free (LF) lift and 2- or 3-stage full free-lift (FFL) VSTA® masts. Masts feature flush-faced, nested-channel design and full-radius, angled load rails provides increased capacity at height while affording shorter overall length. | <ul style="list-style-type: none"> Tilt and auxiliary systems have 2295 psi (155 Mpa) relief hydraulic in all valve positions. Pressure system is protected by a replaceable 10-micron element in-line filter assembly. Hydraulic breather filter includes an anti-splash baffle and is mounted on top of the tank. 0-Ring face seal fittings with captive O-Ring grooves are used on all high pressure connections. Emergency lowering valve allows load to be lowered in the event of battery power loss. 100 Mesh suction line strainer. |
| CARRIAGE | STEER AXLE / STEER SYSTEM |
| <ul style="list-style-type: none"> ITA Class lift (H60-70FT). Overall width without load backrest extension (LBE) is 42.0" (1067 mm), with LBE is 43.27" (1099 mm). Minimum inside-to-inside fork spacing, center to center is 20" (508 mm). Maximum outside-to-outside fork spacing, center to center is 38.7" (984 mm). | <ul style="list-style-type: none"> Equal-area, double-ended, hydrostatic steering cylinder is mounted in cast ductile iron safe frame. Electronic axle mounts absorb shock and allow lubrication free articulation. Axle assembly utilizes synthetic boots and seals to retain lubricants and shield components against destructive grit and reduce lube usage. Wheel hubs rotate on large, tapered roller bearings. Top spindle bearings lubricated through easy access tube fittings. Hydrostatic steer system provides smooth, precise steering. Hydraulic Stability Mechanism (HSM) ensures lateral stability by limiting steer axle articulation without a compromise in uneven surface travel. |
| FORKS | COOLING SYSTEM |
| <ul style="list-style-type: none"> H40-50FT lift trucks feature: 1.6" x 3.9" x 36.0" to 60.0" (40 x 100 x 914 to 1525 mm) long pallet forks. H60-70FT lift trucks feature: 2.0" x 4.9" x 36.0" to 72.0" (50 x 125 x 915 to 1830 mm) long pallet forks. Polished and tapered forks are also available. | <ul style="list-style-type: none"> Multiple cooling system designs, depending on engine and transmission combination: <ul style="list-style-type: none"> - Serpentine core - Square-wave anti-dog - Heavy duty square-wave anti-dog - Square-wave anti-dog/Combi-cooler All radiators utilize cross-flow aluminum cores, pusher type fans and permanently lubricated water pump. "Knife-edge" type fan shrouds that direct air flow through the counterweight air passages. 15 psi operating system pressure Combi-cooler contains an externally mounted transmission oil cooler to aid in heat dissipation. |
| ENGINES | ELECTRICAL SYSTEM |
| <ul style="list-style-type: none"> Five engines are available for the H40-70FT models: the Yanmar 2.6L and 3.3L diesels are all emissions compliant powerplants. Their configurations are specified as follows: <ul style="list-style-type: none"> - Forlifts™ Package uses the Mazda FE 2.0L or the Yanmar 2.6L engine. - Forlifts™ Advance Package uses the Mazda P2 2.2L or the Yanmar 2.6L engine (H40-60FT), and the GM 2.4L or Yanmar 3.3L engine (H70FT only) - Forlifts™ Plus2 Package uses the GM 2.4L or the Yanmar 3.3L engine. | <ul style="list-style-type: none"> CANbus electrical system simplifies truck wiring and enhances truck dependability. IP 68 sealed automotive style electrical connectors. Standardized wire routing, all wires are color coded, and marked with numbers for easy identification. Vehicle System Manager (VSM) directly or indirectly controls all electrical functions except those controlled by the Engine Control Unit (ECU). 12-volt maintenance free battery provides 47.5 cold cranking amps (cca) Mazda and GM, and 77.0 cca for the Yanmar diesels. |
| OPERATOR COMPARTMENT | HYDRAULIC SYSTEM |
| <ul style="list-style-type: none"> Overhead hydraulic control levers (Forlifts™ / Forlifts™ Advance) 12-inch leaved steering wheel with spinner knob. Adjustable steering column with single braking/parking lever and permanently lubricated water pump. Inspired dashboard design is backlit, allowing easy visibility under all lighting conditions. Grid-style overhead guard offers superb visibility at extended heights. Infinite adjustable tilt steer column. Optimal 15.0" (H40-50FT) or 16.0" (H60-70FT) entry step height on both sides of the truck. MONOTROL® pedal controls engine speed and truck direction, freeing operator's hands to operate steering and hydraulic levers. | <p>Manual Hydraulic Control Valve & Electro-Hydraulic Control Valve</p> <ul style="list-style-type: none"> H40-50FT hydraulic lift system operates at 3100 psi (21.4 Mpa) H70FT hydraulic lift system operates at 3400 psi (23.4 Mpa) |

Special attachments, equipment or accessories not listed above may be available through Applications Engineering for specific application requirements.
